Ideal for your own personal times of reflection, these 31 MP3 tracks…each 15 minutes in length…deliver almost eight hours of improvised piano music. Superb quality MP3 files are ready to download to your personal listening device or computer. Or simply burn your own audio discs.

This is the companion project to my narrated,
'Reflections on…The Proverbs of Solomon'

In the original project, I offer my reflections on the ancient wisdoms found within the Proverbs of Solomon. Each chapter is featured in a 15 minute improvised melding of piano music and text.
